            <div class="input-field col s12">
                <i class="fas fa-list-ol prefix red-text text-darken-4"></i>
                <textarea id="method" name="method" minlength="5" maxlength="2000"
class="materialize-textarea validate"
                    required>{{ recipe.method }}</textarea>
                <label for="method">Method</label>
            </div>
        </div>
```

[Check]

Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.

[Message Filtering]

1. **Warning** **Consider adding a** `lang` **attribute to the** `html` **start tag to declare the language of this document.**

    [From line 1, column 1; to line 1, column 25](#)

    `{% extends "base.html" %}↵{% bl`

    For further guidance, consult [Declaring the overall language of a page](#) and [Choosing language tags](#).

    If the HTML checker has misidentified the language of this document, please [file an issue report](#) or [send e-mail to report the problem](#).

2. **Error** **Non-space characters found without seeing a doctype first. Expected** `<!DOCTYPE html>` **.**

    [From line 1, column 1; to line 1, column 25](#)

    `{% extends "base.html" %}↵{% bl`

3. **Error** **Element** [head] **is missing a required instance of child element** `title` **.**

From line 1, column 1; to line 1, column 25

```
{% extends "base.html" %}↵{% bl
```

Content model for element head:

If the document is an iframe srcdoc document or if title information is available from a higher-level protocol: Zero or more elements of metadata content, of which no more than one is a title element and no more than one is a base element.

Otherwise: One or more elements of metadata content, of which exactly one is a title element and no more than one is a base element.

4. **Error** **Bad value** `{{ url_for('edit_recipe', recipe_id=recipe._id) }}` **for attribute** `action` **on element** `form` **: Illegal character in path segment:** `{` **is not allowed.**

From line 11, column 5; to line 11, column 100

```
nel">↵        <form class="col s12" method="POST" action="{{
url_for('edit_recipe', recipe_id=recipe._id) }}">↵
```

5. **Error** **Text not allowed in element** `select` **in this context.**

From line 26, column 1; to line 26, column 52

```
</option>↵                        {% for category in categories %}↵
```

Content model for element select:

Zero or more option, optgroup, and script-supporting elements.

6. **Error** **Text not allowed in element** `select` **in this context.**

From line 27, column 1; to line 27, column 75

```
gories %}↵                        {% if category.category_name ==
recipe.category_name %}↵
```

Content model for element select:

Zero or more option, optgroup, and script-supporting elements.

7. **Error** **Text not allowed in element** `select` **in this context.**

From line 29, column 1; to line 29, column 30

```
</option>↵                        {% else %}↵
```

Content model for element select:

Zero or more option, optgroup, and script-supporting elements.

8. **Error** **Text not allowed in element** `select` **in this context.**

From line 31, column 1; to line 31, column 31

```
</option>↵                        {% endif %}↵
```

Content model for element select:

Zero or more option, optgroup, and script-supporting elements.

9. **Error** **Text not allowed in element** `select` **in this context.**

From line 32, column 1; to line 32, column 32

```
 endif %}↵                        {% endfor %}↵
```

Content model for element select:

Zero or more option, optgroup, and script-supporting elements.

10.   **Error**   **Element** `option` **without attribute** `label` **must not be empty.**

From line 42, column 47; to line 42, column 55

```
disabled></option>↵
```

11.   **Error**   **Text not allowed in element** select **in this context.**

From line 43, column 1; to line 43, column 50

```
</option>↵                        {% for difficulty in levels %}↵
```

Content model for element select:

Zero or more option, optgroup, and script-supporting elements.

12.   **Error**   **Text not allowed in element** select **in this context.**

From line 44, column 1; to line 44, column 85

```
levels %}↵                        {% if difficulty.recipe_difficulty ==
recipe.recipe_difficulty %}↵
```

Content model for element select:

Zero or more option, optgroup, and script-supporting elements.

13.   **Error**   **Text not allowed in element** select **in this context.**

From line 46, column 1; to line 46, column 29

```
</option>↵                        {% else%}↵
```

Content model for element select:

Zero or more option, optgroup, and script-supporting elements.

14.   **Error**   **Text not allowed in element** select **in this context.**

From line 48, column 1; to line 48, column 31

```
</option>↵                        {% endif %}↵
```

Content model for element select:

Zero or more option, optgroup, and script-supporting elements.

15.   **Error**   **Text not allowed in element** select **in this context.**

From line 49, column 1; to line 49, column 32

```
 endif %}↵                        {% endfor %}↵
```

Content model for element select:

Zero or more option, optgroup, and script-supporting elements.

16.   **Error**   **Bad value** `{{ url_for('my_recipes') }}` **for attribute** `href` **on element** `a` **: Illegal character in path segment:** `{` **is not allowed.**

From line 122, column 17; to line 122, column 85
